

Residents in the construction area have received notifications about the project and a door hanger regarding homeowner items in the right-of-way. If you wish to preserve these items (custom mailboxes, landscaping, planters, trees, irrigation systems, etc.), it is suggested you begin removing them now from the right-of-way. If homeowner items are not removed by the time construction begins, then the contractor will consider these items left for refuse.

Mailboxes: Mailboxes in the path of drainage work will be removed and replaced with standard units. We are in close communication with the post office to ensure there is no disruption of mail service.

Driveways: The regrading of channels and replacement of driveway culverts will require the reconstruction of some driveways. Driveways will be accessible by the end of each workday. Full driveway repairs will be made upon completion of the entirety of the work at each property. Notice will be provided to homeowners and residents at least 48 hours prior to any driveway access interruptions.

Irrigation Systems: Irrigation systems in the path of drainage work will be removed, capped at the right-of-way line and will not be replaced.

Questions, Subscribe to Email Alerts and Project Webpage

If you have any questions regarding this information, please contact our Public Involvement Team by calling (512) 943-1195 or emailing roads@wilco.org. All project materials and updates, including any lane or road closures, will be posted on the Forest North Drainage Improvement Project page of the Road Bond website. We encourage you to sign up for news and updates under the “Subscriptions” tab.
